RISE

BI-WEEKLY BULLETIN
SEPTEMBER 11, 2020

Rapid Immunization Skill Enhancement (RISE) is a complementary capacity building package to strengthen the ongoing training of frontline health workers engaged in routine immunization under Universal Immunization Program of Government of India. This user-centric model optimally leverages the high technology (mobile phone, internet) penetration among the health workforce and effectively uses a digital training content supported by a face-to-face component of mentoring by supervisors. The digital part is primarily self-learning through an objective focused content based on adult learning principles that engages the learners through a variety of audio, animated visuals, reading and interactions like learning games and quizzes. It also has a provision of objectively assessing the learning and certification to make it more attractive to the learners. An open source Learning Management System (LMS) has been custom made to manage and deliver this digital content and provide a real-time monitoring dashboard which enables problem-solving and mentoring by supervisors. The dashboard is the basis of this bulletin with RISE update.

Go-Live Dates

MODULE 1:
Immunization Schedule & Session Management
(MARCH 1, 2020)

MODULE 2:
Injection Safety & Vaccine Administration
(APRIL 1, 2020)

MODULE 3:
Principles of Cold Chain Management
(MAY 1, 2020)

MODULE 4:
Adverse Events Following Immunization
(JUNE 1, 2020)

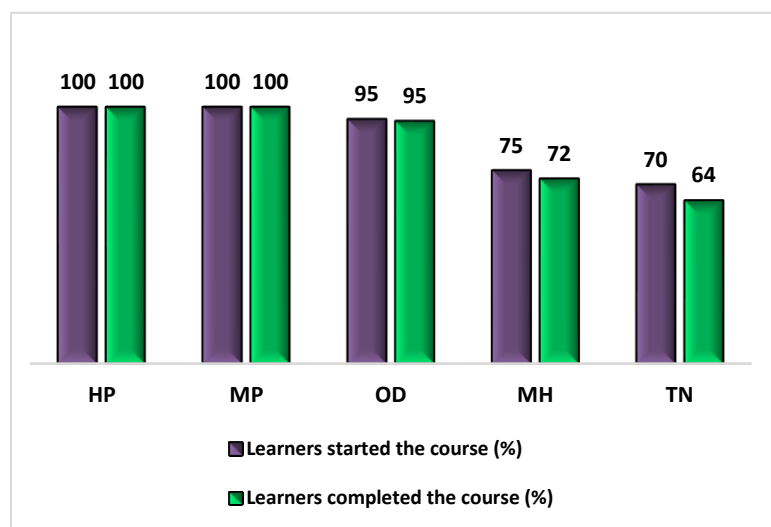

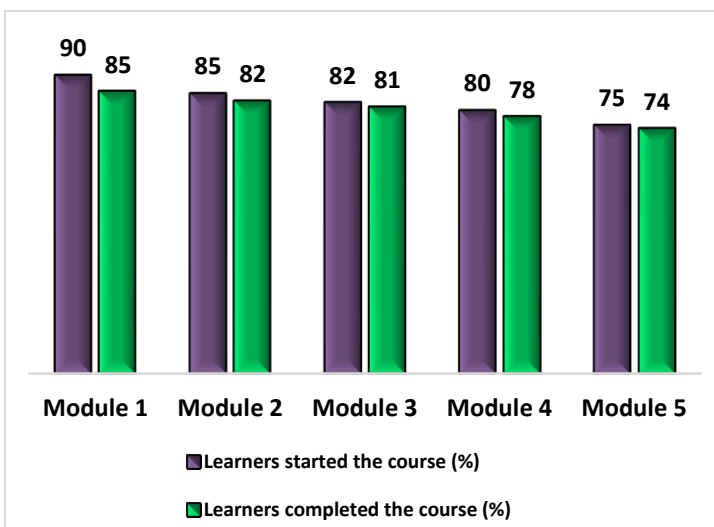

MODULE 5:
Communication to Tackle Vaccine Hesitancy
(JULY 08, 2020)

TOTAL NUMBER OF LEARNERS

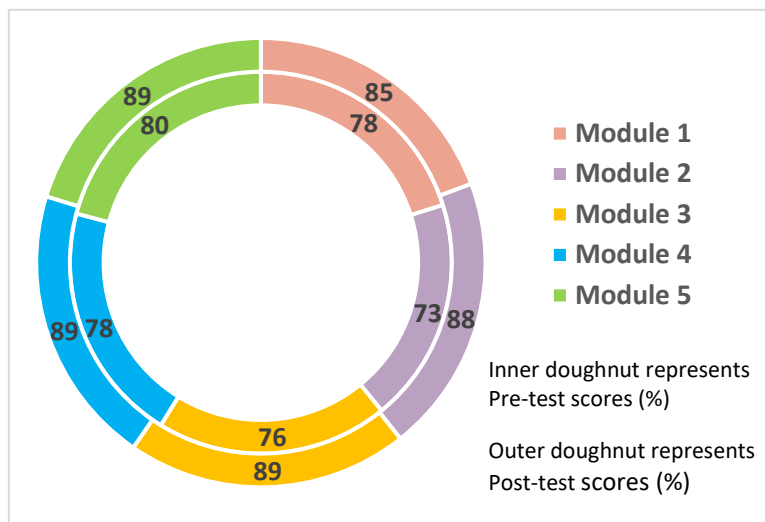

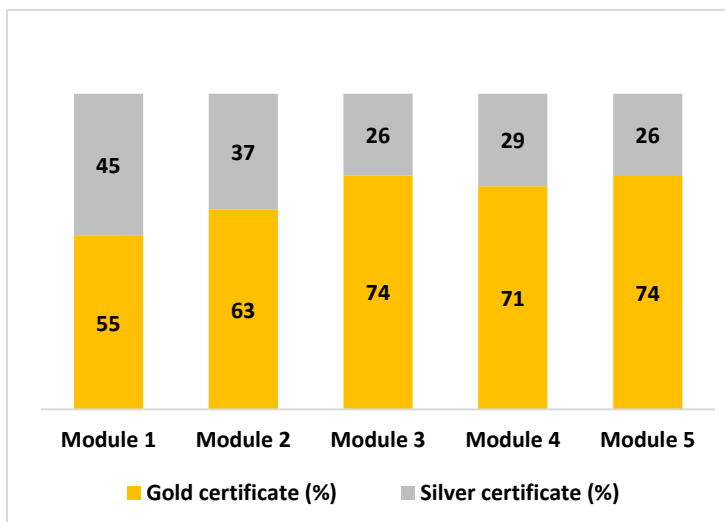

DISTRICT, STATE	NO. OF TARGET LEARNERS
SHIMLA, HIMACHAL PRADESH (HP)	285
PUNE, MAHARASHTRA (MH)	1184
BHOPAL, MADHYA PRADESH (MP)	258
KHORDHA, ODISHA (OD)	404
KANCHEEPURAM, TAMIL NADU (TN)	468
TOTAL	2599

COVERAGE (average of 5 states)- Module-wise

Stories from Field

Congratulations!!

100 % Completion of "All Modules"

**DISTRICT SHIMLA,
HIMACHAL PRADESH**

**We Appreciate the
Leadership!!**

Highlights!!

- Quizmaster, quizzes based on identified gaps in learning, assessed from the performance in the modules, has started last week. This will help continuity & consolidation in learning for the learners who have completed all modules
- Quiz 1 & Quiz 2 were rolled out on 04th September & 11th September, respectively

RISE Training can be taken "Anytime-Anywhere"

Smt. Renuka Vhajage
GNM
Urban Health Centre Mangalwar
peth (Pune Municipal Corporation)
District: Pune, Maharashtra

Mrs. Renuka Vhajage is a GNM from Pune with more than 12 years of experience. She is currently engaged in OPD and immunization activities. Despite having a busy schedule, she has completed all the five modules on the very first day of the roll-out and accomplished Gold Certificate in all the modules. She has received 100 % post assessment marks in four out of the five modules.

She says that **RISE training has helped to refresh her knowledge regarding immunization schedule as well as the cold chain**. She had a special mention of **the quizzes and games in the RISE App which had helped her in knowledge recall**.

She emphasized that **being updated with the guidelines is need of the hour**. While narrating her experience, she explained that best thing about RISE is that **"I could complete the modules at any point of time that suited me and I could pause and play the course from the same point where I paused"**. Further, she added **"RISE training could be taken anywhere even while travelling using an earphone and I didn't have to spare extra time"** to complete the courses.

RISE- Latest Updates

- The webinar titled “Rapid Immunization Skill Enhancement (RISE)-Encouraging experience with an alternate capacity building model in COVID-19 times” was presented at global platform successfully on September 09, 2020.

Feedback from Learners

- Important app for me- Smt, Sumita Kaushal, Block Kumarsain, District Shimla, Himachal Pradesh.
- The process is best for immunization management- Hemalata Rath, Block Balipatna, District Khordha, Odisha
- We liked these courses immensely. If such updated information is received by us from time to time, we will be well equipped to do Immunization with proper skills-Aher Rohini D, LHV, Block Khed, District Pune, Maharashtra
- It was very good- S. Sumithra, VHN, Block Sriperumbudur, District Kancheepuram, Tamil Nadu

Photo of the Fortnight

Smt. Savita Pawar was the **first learner who completed all five modules among all five states.**
 ANM, Block Haveli, District Pune, Maharashtra

Fill in the blanks

- Diluents supplied with the vaccine should be stored in the ILR at least hours before use to ensure that the vaccine and diluent are at the same temperature when reconstituted
- An AD/reconstitution syringe should be cut using a immediately after use.
- Vaccine carriers with ice-packs should be used for outreach sessions.
- A reconstituted vaccine should be used within hours of reconstitution.
- Local symptoms such as pain, swelling or redness at the site of injection must be categorized asAEFTIs.

Answers: 1) 24 Hours 2) Hub cutter 3) Four 4) Four 5) Minor
