

**RISE**

**WEEKLY BULLETIN**  
APRIL 17, 2020

Rapid Immunization Skill Enhancement (RISE) is a complementary capacity building package to strengthen the ongoing training of frontline health workers engaged in routine immunization under Universal Immunization Program of Government of India. This user-centric model optimally leverages the high technology (mobile phone, internet) penetration among the health workforce and effectively uses a digital training content supported by a face-to-face component of mentoring by supervisors. The digital part is primarily self-learning through an objective focused content based on adult learning principles that engages the learners through a variety of audio, animated visuals, reading and interactions like learning games and quizzes. It also has a provision of objectively assessing the learning and certification to make it more attractive to the learners. An open source Learning Management System (LMS) has been custom made to manage and deliver this digital content and provide a real-time monitoring dashboard which enables problem-solving and mentoring by supervisors. The dashboard is the basis of this weekly bulletin on RISE update.

## This Week's Highlights

*"We bring learning to people instead of people to learning"*

Mrs. Prabha Zinta,  
HSC Tharola, Block Kotkhai,  
District Shimla, Himachal Pradesh

In Feb 2020, Mrs. Prabha, a senior health staff with 30+ years of experience, met with an accident and got both her legs fractured. She was admitted at the Indira Gandhi Medical College Hospital, Shimla and could not attend the block-level training for RISE. Currently she has been discharged from hospital and recuperating in her home till she is fit enough to resume her duties.

She came to know about the RISE application through her colleagues and the WhatsApp group created in the block for RISE. She got interested and though she was not trained in using the app, downloaded the application in her personal mobile with guidance from her peers. She faced some problems with internet connectivity at times, but maintained her zeal and successfully completed both the modules with Gold certificates.

This is a testimony of the enthusiasm RISE has generated among the learners and they are enjoying learning even when off-duty

## Congratulations!

Blocks with 100 percent completion of  
Module 2;
