RISE

BULLETIN
October 23, 2020

Go-Live Dates

MODULE 1:
Immunization Schedule & Session Management
(MARCH 1, 2020)

MODULE 2:
Injection Safety & Vaccine Administration
(APRIL 1, 2020)

MODULE 3:
Principles of Cold Chain Management
(MAY 1, 2020)

MODULE 4:
Adverse Events Following Immunization
(JUNE 1, 2020)

MODULE 5:
Communication to Tackle Vaccine Hesitancy
(JULY 08, 2020)

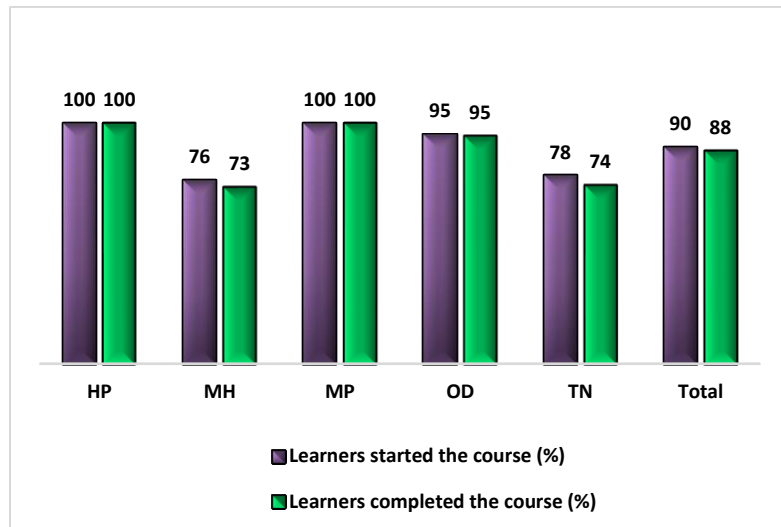

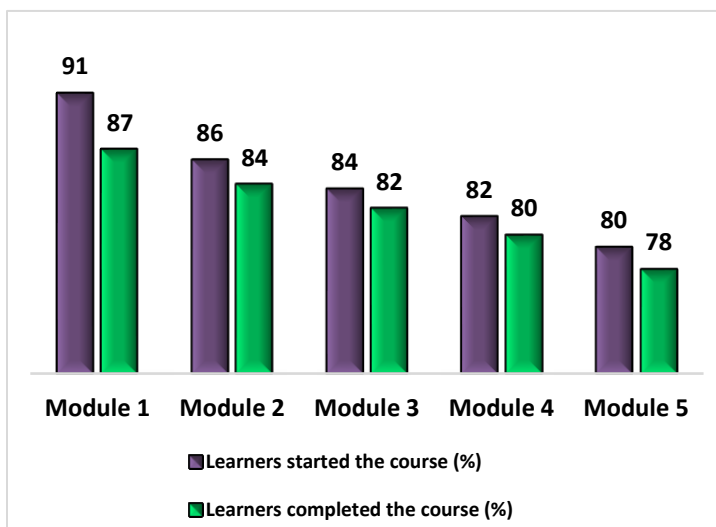

Rapid Immunization Skill Enhancement (RISE) is a complementary capacity building package to strengthen the ongoing training of frontline health workers engaged in routine immunization under Universal Immunization Program of Government of India. This user-centric model optimally leverages the high technology (mobile phone, internet) penetration among the health workforce and effectively uses a digital training content supported by a face-to-face component of mentoring by supervisors. The digital part is primarily self-learning through an objective focused content based on adult learning principles that engages the learners through a variety of audio, animated visuals, reading and interactions like learning games and quizzes. It also has a provision of objectively assessing the learning and certification to make it more attractive to the learners. An open source Learning Management System (LMS) has been custom made to manage and deliver this digital content and provide a real-time monitoring dashboard which enables problem-solving and mentoring by supervisors. The dashboard is the basis of the bulletin on RISE updates.

TOTAL NUMBER OF LEARNERS

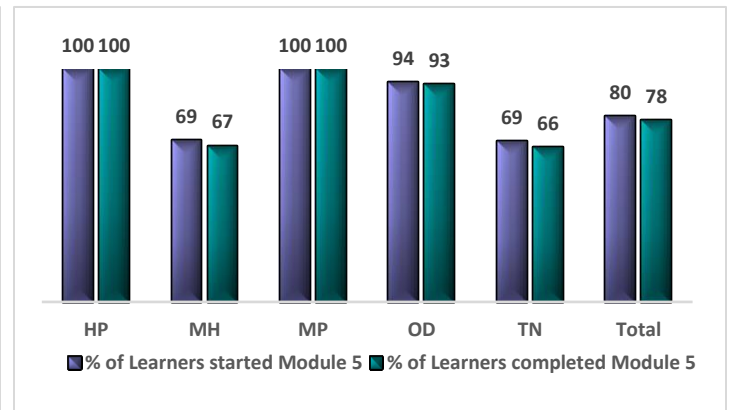

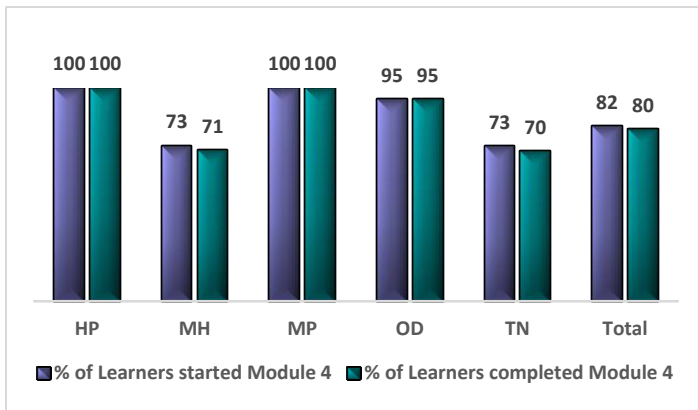

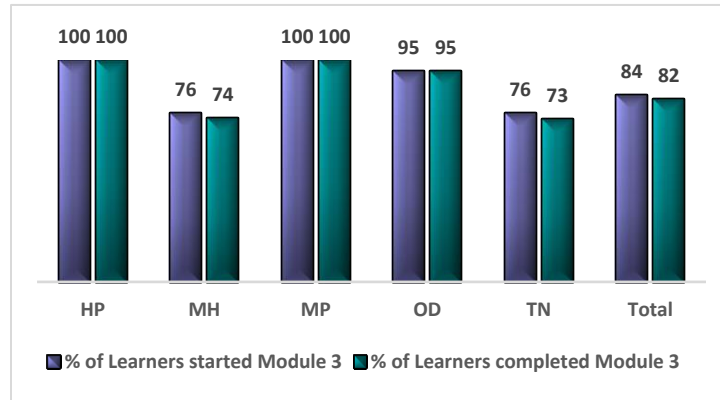

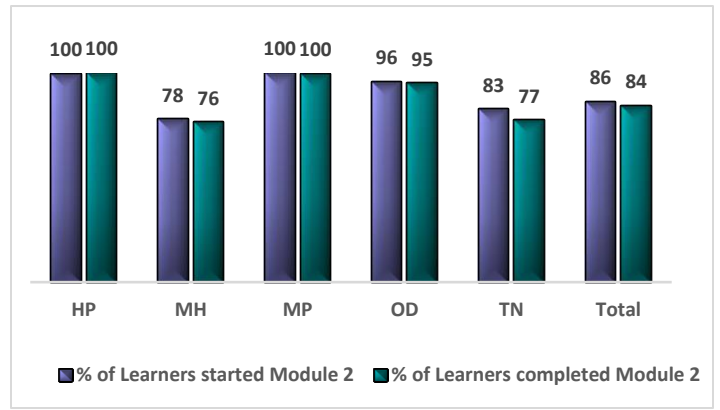

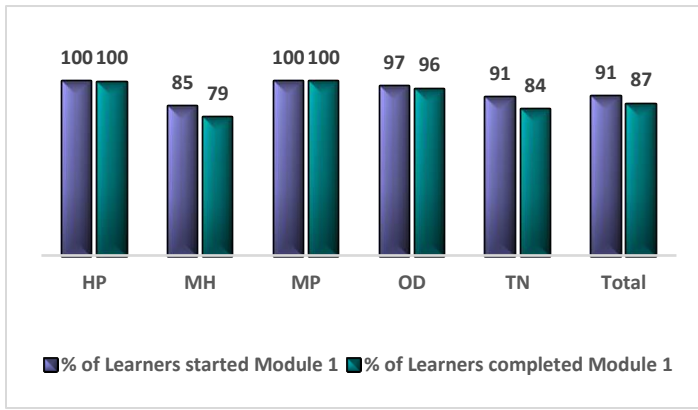

DISTRICT, STATE	NO. OF TARGET LEARNERS
SHIMLA, HIMACHAL PRADESH (HP)	285
PUNE, MAHARASHTRA (MH)	1183
BHOPAL, MADHYA PRADESH (MP)	258
KHORDHA, ODISHA (OD)	404
KANCHEEPURAM, TAMIL NADU (TN)	473
TOTAL	2603

CERTIFICATION AND AVERAGE PRE AND POST TEST SCORES AT AGGREGATE LEVEL

Field Work in COVID-19 times

RVS Visit, Kandhamal, Odisha

SVS Visit, Bhubaneswar, Odisha

Endline Assessment, Bhopal, Madhya Pradesh

Endline Assessment, Pune, Maharashtra

Highlights!!

Quizmaster, quizzes based on identified gaps in learning, assessed from the performance in the modules, has been continuing since last 6 weeks. This is helping the learners who have already completed the modules, in revising the lessons & consolidation the learning.

- Learners are appreciating the quiz and 60-70% of them are completing weekly quizzes regularly
- In **Tamil Nadu**, completion of all the modules has picked up significantly over the last 2 weeks. 53(11%) learners have completed during this period

Story from Field

"RISE"- Difficult roads often lead to beautiful destination

Tmt.P.Antoni mammal,
Village Health Nurse (VHN),
UPHC Anakaputthur, Block Medavakkam
District Chengalpattu, Tamil Nadu

Sister Antoniammal has been working as a Village Health Nurse for the past 14 years and has been a part of various routine trainings. Presently, she serves the urban population in the district. She had completed the RISE training amidst routine responsibilities and additional duties assigned under COVID-19 pandemic. Initially hesitant, she struggled to complete the training but due to keen interest and sheer determination, she completed the modules later. She has minimal technical experience on the use of smartphones and therefore wasn't comfortable with the applications, but it couldn't stop her from completing the modules. She devoted time to learn the smart phone and the RISE application diligently.

Throughout the process, she continued to contact the RISE team directly and relentlessly worked through several late nights. Amidst the hectic routines and responsibilities, she successfully completed all the modules in a span of 8 days. Her completion of training has motivated other learners as well who were hesitant to start the modules like her.

Now she is elated and says **"in spite of difficulties in completing the RISE modules, I am thankful to the training as the modules are informative, easily understandable and I have learnt vital and new things."**

Fill in the blanks

- The correct route for administering DPT Booster is.....
- The correct route for administering OPV is.....
- The correct route for administering fIPV is.....
- The correct route for administering MR vaccine is.....
- The correct route for administering BCG vaccine is.....

Answer: A- Intramuscular, B- Oral, C- Intradermal, D- Subcutaneous, E- Intradermal
