Principles of Cold Chain Management
(MAY 1, 2020)

MODULE 4:
Adverse Events Following Immunization
(JUNE 1, 2020)

MODULE 5:
Communication to Tackle Vaccine Hesitancy
(JULY 08, 2020)

Rapid Immunization Skill Enhancement (RISE) is a complementary capacity building package to strengthen the ongoing training of frontline health workers engaged in routine immunization under Universal Immunization Program of Government of India. This user-centric model optimally leverages the high technology (mobile phone, internet) penetration among the health workforce and effectively uses a digital training content supported by a face-to-face component of mentoring by supervisors. The digital part is primarily self-learning through an objective focused content based on adult learning principles that engages the learners through a variety of audio, animated visuals, reading and interactions like learning games and quizzes. It also has a provision of objectively assessing the learning and certification to make it more attractive to the learners. An open-source Learning Management System (LMS) has been custom made to manage and deliver this digital content and provide a real-time monitoring dashboard which enables problem-solving and mentoring by supervisors. The dashboard is the basis of the bulletin on RISE updates.

Total Number of Learners

| District, State | Learners |
|-------------------------------|-------------|
| Bhopal, Madhya Pradesh (MP) | 258 |
| Shimla, Himachal Pradesh (HP) | 285 |
| Khordha, Odisha (OD) | 399 |
| Kancheepuram, Tamil Nadu (TN) | 473 |
| Pune, Maharashtra (MH) | 1183 |
| Total | 2598 |
